A * in the location cell indicates, "See note, next to last column"

Column E (NT) indicates Network Type:
BM for Brandmeister, CB for c-Bridge

Column F (M) indicates repeater mode:
D for DMR only
M for multimode, which means the repeater supports DMR plus at least one other mode, e.g. C4FM, DSTAR, P25 or NXDN. A multimode repeater is not available to handle a DMR repeater if it's already busy on another mode.

Report updates via arsw9w@gmail.com

LEGEND FT Talkgroup is Full-Time
PT PT-activated. Duration varies but rarely for more than 15 minutes.

BM Talkgroup is available via BrandMeister through PTT Activation
Talkgroup is Not Available
